## Lloyd Mats

The premier manufacturer of custom-application floor and cargo mats for three decades and counting, Lloyd's obsessive attention to perfect fit and finish makes them the choice of Corvette enthusiasts everywhere. If you want the best – demand Lloyd.

## Ultimat™

As the name suggests, enjoy “living room” luxury in your Corvette! Ultimates use two pounds of 2-ply twisted nylon yarn per square yard to create a dense 5/16” pile that holds up to hard use. Bound edges can never unravel. OE colors with embroidered logo appliqué. Floor mats anchor same as factory.

While C5 carpet was the same color throughout the interior, the rear cargo area on all C6 Corvette interiors was carpeted in an Ebony Black material. For a truly custom look, Zip has C6 cargo mats in Cashmere, Varsity Red and Titanium Gray to compliment your front carpets.

## Velourtex

With Lloyd, less cost does not suggest less quality. A significant step up from your Corvette's factory mats, Velourtex gets its velvety texture from 20 ounces of premium nylon yarn same as found in higher priced mats. Available in original carpet colors with embroidered logo appliqué.

Morimoto lighting was established in 2008 in the USA to fill the gap in the aftermarket for truly high quality automotive lighting products. There is no other name in lighting that comes more widely recommended by end-users for performance, reliability, and the way it looks. Morimoto is the automotive lighting benchmark.

Zip offers a select group of body panels manufactured using RTM (Resin Transfer Molding) technology. This process produces parts of exceptional quality, made by injecting fiberglass into match molds then compressing it all under high pressure. Panels that pop out are smooth-finish on both sides with a uniform thickness, plus RTM’s accelerated cure time eliminates any possibility of “wet” parts becoming distorted after leaving the molds. Finished panels are CNC water jet trimmed for clean edges and precise shape. The end result is superior fit, superior finish and superior appearance!

## ZR1 Front Splitter

At the 200 mark the ZR1 required additional downforce to keep the nose planted. GM’s solution – a wicked chin splitter to control airflow – is a direct bolt-on for Z06/GS. Zip offers the real-deal OE carbon fiber splitter as well as a high-quality RTM replica. Front bumper reinforcement is recommended due to increased downforce.

## Zip 2-Piece Slotted Rotors

OE replacements for demanding enthusiasts. Ideal for performance street/autocross use. Recommended for HPDE drivers – slots are best for channeling gasses and spent material from rotors. Zip-spec Coleman Racing units feature CNC-milled 6061-T6 billet aluminum hats with a hard coat anodized finish and aerospace NAS fasteners. 2-piece rears fit GM park brake assembly. Save 30+ pounds over factory rotors! Sold in pairs. Zip also offers OE rear rotors with machined slots to match 2-piece fronts.

## Green Air Filter

Improve performance – go Green! As in Green Filter USA. The flow difference between paper and oiled cotton may not be much when both filters are brand new, but a few hundred miles later it can be significant (as paper loses efficiency once dirty). Green Filter's precision pleat geometry traps 20% more contaminants while optimizing airflow into the engine. AC-233 filter when used for ZR1 or 12-13 LS7 requires AC-223 retainer. Lifetime guarantee.

## A&A Corvette/Vortech Supercharger

Beauty meets brawn – to the tune of +175 rear-wheel horsepower! Show-polished Vortech supercharger, duct, CNC-cut 6061 aluminum plate brackets and stainless clamps. Shroud is satin black powder coat. Fits under stock hood. A&A's superior engineering addresses key areas essential to building maximum power: alignment, belt wrap (best in industry), and intercooler design, size and placement. Includes injectors. LS2/LS3 includes Boost-A-Pump™ fuel system upgrade. LS3 Grand Sport with dry sump, and LS3 Z51 6-speed with external cooler require Direct Fit® aluminum radiator with built-in engine oil cooler (EOC) at additional cost (see page 51). LS7 package includes radiator. All require custom ECM calibration.

*Superchargers require advanced installation capabilities – Zip recommends professional installation by an experienced performance shop. Call for details.*

## Edelbrock E-Force Supercharger

An icon in the hot rod industry, Edelbrock's entry into the Corvette supercharger arena is formidable. LS2/LS3 system knocks right on the door of 600 flywheel horsepower. LS7 boasts 657! LS3 Grand Sport with dry sump oiling requires additional hardware. Unique to E-Force are 12" long runners that build maximum low end torque. OE look and fits under stock hood. Kit highlights include top-mount assembly with Eaton 4-lobe rotors and integral bypass valve, dual intercoolers, twin-core heat exchanger, handheld ECM programmer, intake duct, fuel injectors and rails, high volume in-tank fuel pump and cast engine covers with black powder coat finish.

## ZR1 Supercharger Quick-Change Hub

10-bolt stainless steel hub allows quick pulley swaps without having to disassemble supercharger each time. Initial hub install requires removal of snout and advanced installation capabilities. No Discount.

PM-659	09-13	LS9 10-bolt pulley hub	64.99
--------	-------	------------------------	-------

## ZR1 Supercharger High-Flow Intake Snout

Lingenfelter snout improves air flow for reduced pressure drop and increased power when using OE or higher-spin drive pulley. 356-T6 cast aluminum. Accommodates up to 100mm throttle body. Includes installed quick-change 10-bolt stainless hub. Install requires fabrication of new air intake system. No Discount.

PM-656	09-13	LS9 high-flow intake snout	1,499.99
--------	-------	----------------------------	----------

## Billet Belt Tensioner

Hi-rev RPMs are known to cause serpentine belts to "jump-off" the factory pulley. A problem compounded by engine upgrades or superchargers; and yet solved with an adjustable billet belt tensioner designed to increase tension and eliminate thrown belts. Black anodized.

M-4067	97-13	Billet belt tensioner	149.99
--------	-------	-----------------------	--------

## ZR1 Supercharger Pulley Kit

19% overdrive ups boost 3-4 psi on stock LS9. Includes steel 2.60" drive pulley and aluminum 100mm idler assembly. Does not require PCM programming or OE serpentine belt change. Install requires snout disassembly and advanced installation capabilities. No Discount.

## ZR1 Supercharger Pulley Upgrades

2.60" pulley spins 19% over stock for 3-4 psi bump. Uses factory harmonic balancer and serpentine belt. Install requires PM-655 100mm idler kit. 2.38" pulley yields 32% overdrive for +6-10 psi. Uses factory balancer. Install requires PM-660 76mm idler kit, PM-661 82.5" belt and custom programming. No Discount.

## ATI Super Damper® Harmonic Balancer

OE dampers are optimally tuned to a narrow band of "perceived" normal driving conditions and do not perform well outside of those limits. ATI's Super Damper can handle any street or racing scenario to better protect your engine. Black zinc chromate finish with laser engraved timing marks. Note: LS-series TTY bolts are one use only (torque once)– use new bolt whenever replacing harmonic balancer. Crankshaft pinning kit for underdriven damper available separately.

See individual specs online: [www.zip-corvette.com](http://www.zip-corvette.com).

## LS1 Knock/Cam Conversion Harness

Simplifies swap of LS2-LS7 into a C5. Lengthened sensor wires allow later-LS front mount cam sensor to plug into LS1 sensor connector located at back of intake. Harness relocates single-wire LS1 knock sensors from top of intake to sides of block. Thermal protected for high heat. Plugs into factory LS1 PCM harness.

E-1106	97-04	LS1 knock/cam conversion harness	69.99
--------	-------	----------------------------------	-------

## LS1 Cam Harness Conversion Extension

If installing an LS2-LS7 but not using knock sensors, this 40" harness extension is needed to plug later-LS front mount cam sensor into LS1 sensor connector located at back of intake. Thermal protected for high heat. Plugs into factory LS1 PCM harness.

E-1105	97-04	LS1 cam harness 40" extension	34.99
--------	-------	-------------------------------	-------

## LS1/LS6 Adjustable Timing Set

COMP Cams concentric adjustment system allows adjustments from 6-degrees advanced to 6-degrees retarded. Features hardened steel billet gears, roller thrust bearing for minimum friction and heat-treated roller chain for rock solid reliability. Ideal for street performance and race applications.

EN-162	97-04	LS1/LS6 adjustable timing set (ND)	239.99

## DashLogic

Turn your factory driver information center or Heads-Up display into a fully customizable gauge canvas. Simply plug DashLogic into your Corvette's factory OBD-II port. DashLogic allows custom visual and audible alerts for any factory monitored condition PLUS 2 auxiliary inputs for additional sensors. Configuration utility requires computer running Windows. No Discount.

X-3481	05-13	DashLogic DIC/HUD Controller	279.99
--------	-------	------------------------------	--------

## Red Light Bandit

Direct and immediate accelerator response. Plug and play trouble-free installation requires no tuning or modifications. 64% increase in throttle response, elimination of stalling on manual transmission Corvettes while making driving yours even more enjoyable. Real "seat of the pants" performance!

PM-865	06-13	Red Light Bandit performance module	179.99
--------	-------	-------------------------------------	--------

## SprintBooster Power Converter

Plugs into accelerator pedal to end signal delay common to drive-by-wire systems. Dash mounted switch offers preset response based on chosen driving style: stock/street, "mild aggressive" – or all-out!

## Deka Fuel Injectors

High-flow injectors are recommended when adding a supercharger or turbo. Standard for injector flow is measured at 3 bar – Corvette fuel systems flow at 4 bar, which changes the amount of fuel dispersed by the injector. Deka 60 lb. actually flow 73 lbs./hr. at 4 bar measurement. Direct replacement for factory fuel injectors. C6 owners wanting to utilize LS2 “tall” style require connector adapters. LS3/LS7 include harness. Set of 8. No Discount.

PM-682	97-07	Deka 60 lb. fuel injector set (ND)	429.99
PM-711	06-13	LS3/LS7 (short) fuel injector set w/harness, 60 lb.	529.99

## Bosch Green Fuel Injectors

Composite “Green Giants” are ideal upgrade when running forced induction power adder. High impedance, with matched flow and excellent response. Split/wide cone spray pattern. “Tall” style. 42 lb./hr. Direct replacement for OE injectors. Set of 8.

PM-684	97-04	Bosch 42 lb. Green fuel injector set (ND)	469.99
--------	-------	---	--------

## Bosch Remanufactured Injectors

OE or upgrade fuel injector used in LS1/LS6 Corvettes. Remanufactured using special equipment then dynamically flow matched to within +/- 2%. Stringent testing ensures injectors meet original factory specifications. 26lb. rating by Bosch at 3 bar. 36lb injector provides additional fuel while maintaining driveability. Set of 8.

PM-862	97-04	Bosch III 36lb. fuel injector set	239.99
--------	-------	-----------------------------------	--------

## Fuel Injector Adapters

Allows the use of 2008 and later LS3/LS7 fuel injectors to be used in the stock C5 Corvette LS1 or LS6 intake manifold and fuel rails. 8 required per Corvette. Sold each.

## Walbro 255 Fuel Pump

For applications where OE pump is not able to supply sufficient fuel flow. Excellent for supercharger or turbocharger upgrades. Rated at 550 horsepower @43.5 psi, allowing for hot fuel handling and jet pump operation. Designed to fit '97-03-Early factory fuel pump case – will not work after 2003 VIN 114930 or all '04 Corvettes. Use 00-03E fuel strainer (#GT-438).

PM-503	97-03E	Walbro fuel pump (ND)	109.99

## DiabloSport Predator 2 Programmer

DiabloSport's Predator is a legend in the LS performance community! And now the Predator is back-better than ever! Expect the same awesome performance gains from this tuner, with more creature comforts like USB updating and color screen. Adjust cooling fan speeds, gear ratios, tire size, and other performance parameters! The best performance impact per dollar! 50-state legal.

PM-856	99-13	Diablosport Predator 2 (50 state legal)	489.99
--------	-------	---	--------

## Hypertech Max Energy

Reprograms OE chip to take full advantage of power on tap. Precise tuning optimizes engine speed from off-idle to redline. Easy to use and factory tune can be reloaded with simple push of a button. Adjust rev and top speed limiters, tweak automatic, improve cooling, recalibrate speedometer and more. 50-state legal.

PM-228	97-04	Hypertech Max Energy, LS1/LS6 (ND)	389.99
--------	-------	------------------------------------	--------

## FAST™ LSX Intake Manifold

Advanced design features larger plenum size and longer, tapered runners to build power across a wide band. Polymer composition offers superior heat dissipation over aluminum. 3-piece assembly allows easy access for match porting or other modifications. Features molded bosses for direct port nitrous injection. C5 Corvettes require factory LS2 or PM-609 90mm throttle body and Zip's PM-608 throttle body conversion harness. For C6 Corvettes, the GM throttle body fits LS2, LS3 and LS7. LS2 intake and requires fuel rail adapter kit for stock fuel rails. LS3 intake requires fuel injector adapters. LS7 intake requires LS3 fuel rail and injector adapters to complete installation. CARB approved. 50-state legal.

M-3903	97-13	FAST LSX 92mm intake manifold gaskets (8 pcs)	39.99

## Atomic Air Force Intake Manifold

MSD Atomic AirForce intake manifolds deliver improved airflow improving performance of both stock and modified engines. Unique bell-mouthed runner entrances maximize airflow and minimize shrouding- all while optimizing the available plenum volume for an unobstructed flow path over opposing runners. 2-piece design allows for easy access for porting. Use OEM or 103mm throttle body. CARB approved.

M-4180	01-04	LS6 coolant system air bleed block-off plug	19.99

## LPE 100mm MAF Sensor

A must for supercharger, turbo or large cubic inch engine upgrades. Accurately measures enough air to support 1000hp. Intake tube fabrication and PCM calibration are a must. Requires use of PM-625 harness adapter on C5 LS1 and LS6 Corvettes. For C6 Corvettes, install requires intake tube fabrication and PCM programming of MAF curve. Machined aluminum with black powder coat finish. LS2 must use PM-625 adapter harness.

PM-692	97-13	LPE 100mm MAF sensor	299.99
PM-625	97-04	MAF sensor harness adapter, LS1 & LS3	36.99

## Atomic AirForce Intake Manifold

MSD Atomic AirForce intake manifolds deliver improved airflow improving performance of both stock and modified engines. Unique bell-mouthed runner entrances maximize airflow and minimize shrouding- all while optimizing the available plenum volume for an unobstructed flow path over opposing runners. 2-piece design allows for easy access for porting. C5 Corvettes must use a throttle body adapter plate or upgrade to a C6 90mm throttle body and adapter harness. C6 Corvettes use OEM or 103mm throttle body. CARB approved. 50-state legal.

OE LS2/LS3 fuel rail- can also be used when installing FAST LSXR intake manifold on LS7 Corvette.

PM-767	05-13	LS2/LS3 fuel rail assembly	349.99
--------	-------	----------------------------	--------

## Power Coupler

Smoother, "straighter" airflow builds more horsepower. Silicone coupler replaces OE accordion coupler to reduce turbulence into throttle body. Stainless clamps included. Specify red or black.

PM-249	97-04	Power coupler	79.99
PM-599	06-13	Power coupler	79.99

## Mass Airflow (MAF) Housings

Give your LS1 a gulp of power-producing air. High-flow units produce over 1,000 cfm. Plastic polymer construction. Sold in pairs.

PM-388	97-00	MAF sensor housing ends, plastic	42.99
--------	-------	----------------------------------	-------

## Granatelli MAF Sensor

Replacement sensor boasts nearly 50% more flow than factory sensor. Injection-molded composite body reduces heat soak while upgraded electronics offer improvements to ignition and injector timing both. If you've upgraded your factory air intake system to a Vortex Rammer box or similar, Zip recommends using this "tweaked" Granatelli sensor for maximum performance.

EH-496	97-00	Granatelli MAF sensor, LS1	475.99
EH-496A	97-00	Granatelli modified MAF sensor, LS1	487.99

## MAF Sensor Adapter Harness

Allows early C5s to use larger '01-04 sensor. Converts 3-wire connector to plug into later 5-wire sensor. Includes provision for air temp sensor.

PM-610	97-00	MAF sensor adapter harness	39.99
--------	-------	----------------------------	-------

## Recalibrated MAT Sensor

Reads fluctuating air temps same as factory unit but recalibrated sensor offers optimum timing curve plus an increase in total timing. Requires drilling 7/16" hole in air filter base. Includes harness.

PM-206	97-00	Recalibrated MAT sensor	39.99
--------	-------	-------------------------	-------

## Aluminum Valve Covers

More than just "fab" looks, fabricated valve covers fit roller tip or 1.85:1 ratio rockers without having to use spacers. Factory coil brackets bolt on same as stock. Note: install requires alternator, alternator bracket and coil brackets be ground to provide necessary clearance for proper fit. Includes new mount bolts and gaskets. Sold as pair.

VC-327 99-13 Aluminum valve covers.....209.99

## COMP Cams Rocker Arm Upgrade Kit

Utilizes captured roller bearings and billet trunnions performing well in high-RPM applications. Preventing engine damage from roller bearing failure while increasing lift capability and improved valve train durability. Includes magnetic installation tool allows for one-handed installation.

## Direct Fit® Aluminum Radiators

Like the name says, our radiators are designed to bolt right in – no ifs, ands or buts. Every Direct Fit radiator is made in the USA and begins life as a double-row core furnace brazed for strength and accuracy. Press formed end tanks are meticulously TIG welded by real craftsmen to ensure leak-free performance and knockout looks. Have a work of art under your hood!

### Direct Fit w/o EOC

For a stock Corvette, the factory radiator does its job very well. But, as soon as modifications come into play, cooling needs to be addressed. Direct Fit increases capacity 100% over OE unit, eliminates failures due to cracked plastic end tanks and/or gasket leaks and is epoxy free. Direct replacement for Corvettes that do not require the added benefit of a built-in engine oil cooler (EOC). RA-172 has screw-on transmission fittings, RA-177 uses quick-connect fittings.

### SPAL FRH Relay Kit

SPAL electric fan relay wiring kit is designed to automatically turn on your SPAL electric fan when the air conditioning is turned on. They can also be used when dual electric fans are installed using one switching device. 40 amp relay kit. Does not contain a 3/8 npt thread thermostatic switch or on/off switch to turn fans on.

### DeWitts Radiator Coolant

DeWitts High Performance Coolant offers a more advanced additive package than standard "green" coolants and maintains better thermal conductivity and heat transfer than propylene glycol (PG) based coolants. The advanced additive package contains special anti-foam agents to reduce water pump cavitation and increase cooling capacity. DeWitts High Performance Coolant meets GM 1899M specifications and is compatible with all nationally distributed coolants and liquid coolant additives.

--------	---------------------------------	-------

Cooling system protection is maintained from -34°F to +265°F when used with a 15lb radiator. Coolant is premixed and ready to install.

### Direct Fit Aluminum Radiator w/Engine Oil Cooler

Designed for cars that do need the added benefit of a built-in engine oil cooler. 7-plate cooler features 3/4-16 SAE ports identical to OE radiator. 6-speed fits LS1 and LS6. RA-187 has screw-on fittings, RA-186 uses quick-connect. Use RA-184 EOC kit to complete install.

### SPAL Electric Fan Kits

Simple science says less engine heat equals more power. Satisfy the most severe cooling demands by "bulletproofing" your Direct Fit radiator with electric SPAL fans pushing anywhere from 2,760 to 3,200 cfm depending on the options below. Shroud design includes rubber flapper valves that improve airflow at high speeds and close at slower speeds. Fits OE or Direct Fit radiator. Corvette-matching fan plugs means no cutting into factory harness!

### Exhaust/Header Wrap

Common knowledge says heat is the enemy of power. Composite wrap reduces underhood temps up to 50% – plus promotes increased exhaust flow. Sold in 2”x 50’ roll. Tan withstands 1200°F direct and 2000°F intermittent heat titanium 1800°F/2500°F. Hi-Temp silicone spray coating penetrates to seal, protect and prolong the life of tan wrap. For HD titanium, “bare” (no spray) is recommended. 304 stainless steel ties secure wrap to pipes/collectors for a clean, finished look.

### Exhaust Tunnel Plate Heat Shield

Exhaust heat radiating up through console can crimp the fun of cruising. DEI's Tunnel Shield II heat insulation is designed to mount to the factory tunnel reinforcement and surrounding floor pan. Constructed of 10 mil aluminum face, bonded to 1/8” composite glass-fiber core backed by a high temp pressure sensitive adhesive. Withstands temps up to 1750 degrees! Simply installation, remove the factory tunnel plate, install Tunnel Shield insulation and reinstall plate. The end result is a much cooler interior.

## HD Clutch Master Cylinder & Slave Cylinder

In 2002, GM redesigned the clutch master cylinder for use with the Z06 clutch; thereafter all '02-04 Corvettes use this heavy-duty design. For '97-01 cars, if you're upgrading to a Mantic, Fidanza or Z06-spec clutch, Zip recommends updating the clutch master cylinder and slave cylinder to maintain pedal feel. If you're a C6 owner stepping up to a performance clutch, Zip recommends adding the heavy-duty factory Z06 clutch master cylinder and clutch slave cylinder to your LS2/LS3 upgrade.

## S1/LS6 Aluminum Flywheel

A lightweight flywheel spinning a high-clamp clutch means less power loss in the drivetrain and more torque to the pavement. Fidanza's 6061-T6 billet aluminum entry features a replaceable 1045 steel friction plate that attaches with aerospace fasteners. 1050-grade steel ring gear is heat treated then pressed on and secured with Grade 8 button screws. Stepped dowel design ensures that once the pressure plate is installed the dowels cannot be removed. Compatible with all clutch material including organic, Kevlar®, ceramic, metallic and sintered iron.

---------	-------	---	--------

## Carbon Fiber Driveshaft

Stronger yet lighter than factory aluminum driveshaft. Puts an end to vibration due to bent shaft or high-rpm "whip" (as carbon fiber doesn't change shape). A safety must for competition Corvettes. Fits 6-speed manual only. '97-00 must upgrade OE 10mm driveshaft torque tube to later 12mm design. No Discount.

## HD Output Shafts

A must-have for anything more than modest power upgrades. Same shafts used in Zip's severe duty diffs. 300M hardened steel. Direct replacements for OE pieces. Consider left side mandatory – add right-hand shaft to take differential to bulletproof. SU-1055 requires SU-1054 gear upgrade. SU-1218 is HD factory unit (requires SU-1054 gear).

## LG Motorsports Trans & Diff Cooler Package

Designed to withstand the heat generated in dedicated track cars. Separate coolers for transmission and differential eliminate unwanted heat transfer that occurs in factory setup. Key is a CNC-milled billet aluminum diff cover that holds a mechanical 2-stage dry sump pump driven by the pinion. No more having to remember to turn the pump on – when the car moves, oil flows. Includes differential mounted pump, braided lines and AN fittings, pair of Setrab coolers and hardware. Also available as differential cover/pump only to plumb own system (SU-1264 does not include lines, fittings, coolers and hardware). No Discount.

## A6 Differential Upgrade

Makes swapping the stronger, and quicker ratio, OE Z06 differential into '06-13 A6-equipped (paddle shift) Corvettes a direct bolt-in upgrade. Kit includes rear cover and plugs for eliminating oil cooler system.

SU-1207	06-13	A6 differential upgrade kit .....	109.99
---------	-------	-----------------------------------	--------

## '05 Differential Upgrade

Case extension swap allows '05 transmission to work with stronger 2nd design differential found in '08-13 6-speed Corvettes. Requires new (longer) LH mount bolt and O-ring seal.

## Driven Racing

Driven Racing Oil, born from Joe Gibbs Racing, is formulated specifically for all-out race and high performance. Driven protects gears, bearings and internal clutches in extreme heat environments such as those experienced by track day cars and race vehicles. By reducing friction, heat and wear, it improves shifting characteristics and lowers operating temperatures.

## aFe Camber Adjustment Kit

Factory eccentrics can slip when "pushed" – don't lose your pricey performance alignment every time you nail a pothole or drop a wheel off the track. Kit allows for maximum negative camber and eliminates eccentrics so settings are locked in. Stainless studs replace upper A-arm bolts, shims set camber and caster. Lower bolts are locked in max position using offset plates, shims dial-in alignment.

---------	-------	------------------------------------	-------

## LG Motorsports Billet Drop Spindles

HD milled spindle supports replace factory cast aluminum pieces. Raised bearing mount lowers car 1" with no change to suspension geometry. Strengthened caliper mount flange is safety feature for track Corvettes running oversize brakes and aggressive pads. Design allows removal of lower bearing bolt without having to loosen the ball joint. Includes installed upper bearing, stud and hardware. Set of 4. No Discount.

SU-1374	05-13	OE sway bar link .....	ea 49.99

## Zip Stage 1 Suspension Package

Without argument, C5 handling is world class right out of the box, but for those wanting to get a little closer to Mother Earth – and enjoy near-infinite adjustability once there – we've combined our most popular upgrades into an all-in-one package. Stage 1 is Zip's lowering kit plus bump steer kits. Perfect for daily drivers, weekend autocrossers and track day enthusiasts.

PM-526	05-13	Zip Stage 1 suspension package .....	489.99

## Zip Stage 2 Sway Bars Package

If fast corners and sanctioned high-speed cruising call to you, a pair of beefy sway bars are a must. This set-up greatly reduces body roll and understeer for a safer and more balanced suspension. Stage 2 includes ADDICO HD T1 style 1 3/8" front and 1" rear sway bars with polyurethane bushings and Zip HD end links. Pair with SU-1107 or PM-526 Stage 1 package for optimum suspension performance!

## Zip Lowering Kit

Drops car 1-2" overall without sacrificing ride quality. Includes Zip-spec polyurethane front bushings and replacement spring bolts (easier install than reusing OE bolts), plus hardened bolts and nuts for adjusting rear height. Must reuse original rear cushions. Requires disassembly of suspension. C6 has cushions available separately if modifying factory bolts (must cut rubber cushions off). Both generations requires disassembly of suspension.

SU-1093	05-13	Zip lowering kit .....	69.99
SU-1003	05-13	Polyurethane lowering cushions only (4) .....	29.99

## Replacement Ball Joints

High mileage C5s, or those that see significant track time, are likely due for a front suspension tune-up. Considered to be "non-serviceable" items by GM, replacement upper and lower ball joints have long been hard to find – until now. Sold each.

SU-1198	97-13	Upper ball joint.....	59.99
SU-1199	97-13	Lower ball joint .....	59.99

## Foil Ball Joint Covers

Flame-retardant gold foil protects ball joint and tie rod boots from extreme brake rotor heat. If you're using pads with big bite, invest in this inexpensive insurance! Precut for exact fit. Self-stick install. Set of 8.

SU-1153	97-13	Ball joint foil boot covers.....	41.99

## Polyurethane Bushings Kit

Non-deforming polyurethane delivers quicker steering response and predictable handling in all driving modes. Kit includes front and rear control arm bushings plus rear spring cushions. Replacing original rubber bushings with poly replacements means your stock control arms will exceed even GM's own T1 specifications!

SU-853	97-13	Polyurethane suspension bushing kit.....	109.99

## POLICIES & SHIPPING - Zip Products

We're proud that orders placed by 3:00 p.m. EST ship that same day with most carriers on in-stock items! Packages ship ground unless otherwise requested or unavailable due to location or size and weight of parts. Expected delivery is 1-6 business days within the continental USA. Please provide complete street address to ensure delivery. Saturdays, Sundays and holidays are not included in UPS delivery times.

**SHIPPING CHARGES** - Shipping charges are most precisely calculated by shipment type, order weight and destination. Customers will be notified of shipping charges prior to order shipment. Please call or go online for shipping charge quotes if desired.

**UPS AIR SERVICES**- UPS provides all guaranteed Air services for Zip Products unless specified by the customer. Available services include Next Day Air, 2nd Day Air, and 3 Day Select. All charges are based on weight or dimensional weight (whichever is greater) and shipment destination. Saturday service is available on Next Day Air shipments only.

**TRUCK SERVICES**- Some parts in our catalog are too large to be shipped by UPS. These parts are noted in the catalog as "truck". Truck shipments are required to be prepaid for the total parts cost plus freight charges by check, money order or credit card. The customer is responsible for providing shipping address to accept parts.

**OTHER SHIPPING SERVICES**- Zip Products also uses the services of FedEx and the U.S. Postal Service. Orders must be paid by credit card, Pay Pal or prepaid check. All FedEx continental USA services are available. Packages sent through the Post Office are sent First Class Priority.

**ZIP INTERNATIONAL**- From single parts to everything needed for a complete restoration, Zip ships Corvette parts the world over. International orders are processed within 24 hours of receipt and delivered via UPS, Postal Service or your own freight forwarder. Please specify shipping method preferred. If not specified, orders will be shipped by the best method as determined by Zip Products. International orders placed online will not have shipping calculated at the time of order, but you will be charged separately. A Zip representative will contact you for approval before international shipping charges are processed. Charges are based on actual weight or dimensional weight according to the size of the entire shipment, whichever is greater. Payment is accepted by credit card, Pay Pal or bank draft. Shipping charges do not include any customs or duty fees and may not include brokerage fees. Quotes will be provided for total cost of order, if required due to payment method.

- **Canada:** Orders must include full address with city and province. All orders are shipped UPS Ground or Air unless otherwise specified or UPS is unable to deliver to your location. To better serve our customers, Zip is recognized as a non-resident importer, a status that allows us to collect all duties, taxes and brokerage fees at the time your order is processed. This arrangement means you know the exact cost to have parts delivered to your door – no hidden costs for your shipments!
- **PUERTO RICO, HAWAII & ALASKA:** All Puerto Rico and Hawaii orders can be sent UPS Ground, Next Day Air, 2nd Day Air, or through the Post Office. Please specify shipping method preferred.
- **A.P.O., F.P.O.:** All orders going to these addresses must be sent by the Post Office.
- **VIRGIN ISLANDS, GUAM:** All orders going to these locations can be shipped via UPS Express or the Post Office. Please specify shipping method preferred.

**MAIL-IN ORDERS**- Customers placing orders by mail and paying by personal check, money order or certified funds can go online or call for shipping charge quote. Shipping charges are most precisely calculated by order weight and destination. Download order forms at [www.zip-corvette.com](http://www.zip-corvette.com).

**LIABILITY DISCLAIMER**- Zip Products is not responsible for any damage, injury, loss or any other charges, caused by delays or incurred in the replacement of any defective items. Zip's liability is limited to the replacement and the shipping cost of defective items only. Improper installation, damage or injury resulting from the use of items sold by Zip Products are the purchaser's responsibility. Due to changes in the Corvette industry, part numbers, specifications, prices and availability of parts can change. Consequently, there may be times when parts are discontinued or prices increased. Changes may also occasionally occur in our policies and terms. Call Zip during regular business hours for up-to-date information.

CHEVROLET, the Chevrolet emblem, CORVETTE, Corvette emblems, GM and AC-Delco are trademarks of General Motors Corporation.

**"NO HASSLE" GUARANTEE**- Since 1977, Zip Products has supplied parts and accessories to Corvette enthusiasts the world over. Then as now, packed into every shipment is our unparalleled commitment to customer service. Here at Zip, we believe a happy customer is a repeat customer. If you're not completely satisfied with any product for any reason, we'll promptly refund or exchange any purchase within 30 days.

**LOW PRICE GUARANTEE**- Zip works hard to make certain our prices are competitive. That said, it's possible you may find "cheaper" merchandise elsewhere. If it is the same brand part or accessory offered for a lower price by another supplier, we'll match their published price. Price must appear in a current magazine advertisement, web site or catalog to qualify. Don't sacrifice quality and customer service for the sake of a few dollars – call Zip!

**RETAIL DISCOUNTS**- Retail customers receive a 10% discount on each minimum purchase of \$850 on any combination of parts and/or accessories, excluding (ND) items. Call or visit online for more information.

**WHOLESALE ACCOUNTS**- Zip provides Corvette parts to more than 3000 wholesale accounts around the globe. Multi-line discount programs are designed for the installer or reseller. Contact a salesperson for specific details. Proof of business required.

**"NO DISCOUNT"**- An (ND) designation beside a part, group of parts or price indicates that "No Discount" is available on that part or group of parts.

**BACKORDERS**- Over 96% of orders ship complete; however, backorders do occasionally occur. Most ship within 10 business days. For longer delays, our policy is to ship orders up to 30 days old. Past 30 days we'll call for authorization first. If you wish to cancel a backorder, please notify Zip as soon as possible.

**ITEM SHORTAGES**- Inspect merchandise immediately upon receipt of order. Notify Zip of any shortages or discrepancies in your order within seven (7) days from shipment date. No claims allowed after seven (7) days.

**DAMAGED PARTS**- All parts shipped are insured for the amount of purchase. Should your order arrive damaged or missing merchandise, immediately notify the carrier (UPS, truck freight company, etc.) and Zip. Keep all shipping materials (box, packing, etc.) intact until an inspection can be made by the carrier.

**CORE REFUNDS**- Customers who have purchased a product sold on an exchange basis and had a core deposit applied must return the required rebuildable core within 30 days from the date of shipment. A copy of the original invoice must accompany the return. Failure to return cores within 30 days may result in a reduction or loss of the core deposit. Return freight for cores is the responsibility of the customer.

**RETURNS & EXCHANGES**- Zip includes a return form on the back of each invoice for your convenience. If you have questions or concerns regarding a return or exchange, call to speak to your Zip sales representative. Returns are eligible for one (1) year without a restocking fee. Return shipping is the responsibility of the customer. C.O.D. return packages are not accepted. The customer is responsible for returning parts in the same condition they were received, with proper packaging and insurance to cover the value of parts being returned. Canadian and international customers, call for authorization to return parts.

**SALES TAX**- Zip is required by state law to collect and remit sales tax on purchases made and shipped to a variety of states. These requirements are based on the specific regulation of the state. Tax is based on delivery destination and may include freight charges. More information about sales tax collection can be found at: <https://www.zip-corvette.com/tax.html>.

**IN-STORE SHOPPING**- Zip has thousands of parts and accessories available for immediate pick-up at our showroom counter. Call before you come and we'll have your order waiting. Showroom hours are 8:30 a.m. to 5:30 p.m. EST Monday-Friday and 9:00am to 1:00pm Saturdays. When traveling in the Richmond, Virginia area, visit Zip Products in Mechanicsville. We're just east of downtown Richmond, and only a quick drive off interstates I-64, I-95 or I-295.
